

Business Solutions

Integrate and streamline your B2B payment solutions.

Visa Ready is designed to help partners ensure that their next generation of third-party payment solutions meet Visa's security standards and specifications when integrated with Visa's commercial payment solutions, such as enhanced data, virtual card integration, payables automation, payment controls and/or supplier match. And, upon successful integration and validation, partners are Visa Ready.¹

Integration Options

You can integrate with one or all of Visa's B2B solutions to help fill functional gaps or strengthen your core competencies.

Deliver Enhanced Data Solutions

Deploy Visa's Enhanced Data Solutions that deliver level 2 and level 3 data to your backend expense reconciliation tools.

Automate Payments

Make the process of paying suppliers more efficient by minimizing paper payments (check) and manual reconciliation.

Integrate Virtual Card

Use Visa virtual cards, when sponsored by a Visa client, in accounting systems as a payment method and streamline card payment remittance reconciliation for merchants.

Grow Supplier Acceptance

Help grow card acceptance by educating your supplier network on the benefits of card payments, and easily locate suppliers in the U.S. that accept Visa for commercial payments.

Set Payment Controls

Closely manage payments by setting authorization control rules, purchase limit rules, and spend velocity rules.
